[PRACTICE]

Dear Madam/Sir,

On behalf of PRACTICE Consortium, we kindly invite you to participate in its **Stakeholder Workshop** that will take place on **Friday 16th August 2013 at Kingston Theatre Austin Court, 80 Cambridge Street, Birmingham B1 2NP, United Kingdom.**

The **PRACTICE** project is an integrative stakeholder-driven research on the CBRN Toolbox development, strongly focused on end-users' needs and opinions. Supported by the 7th Framework Programme on Research and Development of the European Union, the **PRACTICE** (*Preparedness and Resilience Against CBRN Terrorism using Integrated Concepts and Equipment*) project aim to develop a compatible, decision support **TOOLBOX** with a flexible and integrated system for improved CBRN crisis management throughout the entire security cycle, easily adaptable to various national organisations and regulations.

The workshop is dedicated to the representatives of various groups, such as public bodies, welfare groups, public security services, tools' providers and others.

The main objectives of the workshop are to:

- Discuss results of the UK Validation exercise on 15th of August.
- Present the **Toolbox** and up-to-date project results in order to receive end-users' feedback for the best development of the Toolbox at later stages of the project.
- Share experts' knowledge and experiences about the critical issues specific for the crisis management activities in relation to Tools and Toolbox improvement.

Active participation in the workshop will give a significant impact on the final Toolbox. Key stakeholders from relevant areas are expected to participate (end users' representatives and organisations, EC representatives, technologies developers, etc.). This workshop therefore is an excellent chance to meet experts from relevant fields.

We are looking to welcome you and have the benefit of your presence on the 16th of August in Birmingham.
